The Liberty Company Insurance Brokers has announced that it has partnered with Innovative Solutions Insurance Services.

Innovative Solutions, led by Lynne Rosenberg, is a national brokerage general agency for life insurance, disability and annuity programs. The new partnership will provide a major conduit for Liberty in this line of business.

“Our strategic partnership with Liberty is a significant milestone in the growth and expansion of our business,” Rosenberg said. “As a highly regarded leader in property-casualty brokerage, this partnership validates our strengths as a leading BGA and provides additional growth opportunities. Our two companies radiate the same core values of integrity, excellence, caring and teamwork in both our business philosophy and relationships. We want to continue to grow our business with our excellent team of employees and advisors. I am very excited about the future.”
